Good morning Miranda:

Please see below information needed by Buzzeo so they can provide us with their proposal.

Please provide information at your earliest convenience.

Best regards,

Edgar Rivera

Subject: RE: Project ID 28098 - Wal-Mart - 62128 - Drug Tracking

Hello Edgar,

We will need to know the following information in order to provide a formal SOM Cloud Solution proposal.

1. Number of pharmacies: Please confirm: Walmart ~4,600 and possible Sam Club ~500 pharmacies? These numbers are correct
2. Number of Controlled Substance and Listed 1 Chemical (PSE) line items per day?

We average about 40,000 line items per day of controlled substances. We are also interested in possibly including non-controlled because we run a similar program to maintain VAWD accreditation. That would add 300,000 line items per day. We would like the pricing for two options: 1) Just controlled substances; 2) Controlled and non-controlled

3. The frequency of the daily orders, at what approximate times and what days per week? I.e: orders 2, 3, 4 times per day at 1pm EST, 5pm EST, M to F etc. We send an order file to the DC 1 time a day at approx 10 PM (CST). This occurs every day: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday
4. We understand Walmart uses a Main frame for its ERP. Can you confirm what they use? Mainframe
5. Can you confirm we will receive all orders from a single feed vs multiple feeds? If multiple feeds, please explain. Currently could be 2 feeds, planned to move to 1 feed by the end of next year
6. The SOM solution has to look at all pharmacy orders regardless of who supplies the pharmacy. Can you outline how Walmart distributions to its pharmacies? Example, does Walmart mostly distribution controlled substances & PSE from its warehouses or does it also use one or more secondary wholesaler also? We would need to know all CS / PSE pharmacy ordering information regardless of whether the pharmacies order from Walmart's distribution facilities or secondary wholesalers. If Walmart uses secondary wholesalers, can you let us know if we will received all pharmacy ordering information in a single feed? The majority of our controlled substances come from Walmart's distribution facilities. We use McKesson as a back-up supplier. McKesson is the sole supplier of our PSE products, so those will not be included in the scope.

Thank you, Gary

Hello Edgar,

I will email you some questions later today that will help us scope out our SOM cloud proposal.

Thank you, Gary

Good afternoon Gary:

As you may know, Accenture has been working with Wal-Mart from a Procurement / Sourcing perspective on their need for the SOM solution. I understand that you have already had discussion with them on their requirements.

Would you be at a point now that you can provide a Scope of Work with pricing for your solution? Do you need any other information in order to provide that?

Please advise.

Thank you,

Edgar Rivera
